LGC Celebrates 35 Years of Service!!!

It's hard to believe that next year Local Government Corporation will be 35 years old. In 1977 with the help of CTAS, MTAS, and TVA, Local Government Data Processing Corporation was formed.

The original Board of Directors were:

Charles Bilbrey, Comptroller's Office
Herbert Bingham, TML
James Cotton, TVA
Ralph Harris, TCSA (Chairman)
Gary Hensley, TML
Ken Joines, MTAS
Mike Kesler, LGDPC
Tom McAnulty, CTAS
Lon Tabor, TCSA
Claude Wright, State Department of Education

The original staff members were:

Mike Kesler, Vice-President
Mickey Wilson, Programmer
John Hunt, Programmer
Doris O'Neal, Key punch Operator
Sue Gilliam, Key punch Operator

We have come a long way in 35 years. At the beginning all work was done in a "batch" environment. Paper records were sent to Columbia, processed on an IBM mainframe, and reports returned to the local government.

As the years went by more services were added, software was written for the ever changing automation environment, and we moved from "batch" to service and support.

In 35 years, Local Government Corporation has moved from five employees to 120+, 20 customers to 1000+, serving one state to multiple states, and two product offerings to 50+.

We are now in the process of rewriting all of our software using the next generation of tools (NextGen) and our first offering (General Ledger) has been a huge success.

With the best staff in our history and a very supportive customer base, we look forward to the next 35 years.

LGC Closings:

Friday, December 23rd,
Monday, December 26th, &
Monday, January 2nd

RESOURCE 2012

April 3rd-5th!

Embassy Suites
Murfreesboro, TN
You don't want
to miss it!

Columbia, TN 38401

Did You Know...

“That LGC can CASS certify your addresses for mailing if you are using the Zortec or Flexgen utility billing software? CASS certification will compare your addresses (from a file obtained by LGC) to the US Postal service address database, update the file, and then we sync the file with your software. Certifying addresses will qualify you for better postage rates and reduce returned mail. To read more on this process and see examples of potential savings, visit the LGC website www.localgovcorp.com and select the CASS certification document under the ‘New Products’ section.”
